
Following Instructions

Example questions

Hygiene requirements

Washing your hands is extremely important in the food processing industry. You must make a habit of washing your hands and arms regularly.

You must use soap and scrub and rinse your hands for at least 15 seconds before entering the work area or after visiting the toilet, picking things off the floor, or whenever your hands become dirty.

EX.1

When must you wash your hands?

1	2	3	4	5
When they are dirty	Before entering the work area	After visiting the toilet	After picking things off the floor	All of these

EX.2

How long should you wash your hands for?

1	2	3	4	5
10 seconds with soap	30 seconds without soap	15 seconds with soap	2 seconds	Cannot say

Cleaning Process

Your work area is to be kept clean and tidy at all times.

Area	Cleaning Frequency	Cleaning Method
Storage room	Weekly	General tidy up
Floor	Daily	Hot water rinse
Bench Tops	At the end of each shift	Scrub with soap water

EX.3

Based on the instructions given, which method should be used for cleaning the floor?

1	2	3	4	5
Hot water rinse	General tidy up	Hose down	Soap water rinse	None of these
